

The Real Pandemic

The Programmed Culture of Death

The Medical Industrial Complex is run by the state and the state is part of the satanic agenda to kill us!

1. Why are hospital murders acceptable in the United States? People have to lose their faith in conventional medicine to open their minds that hospitals cause harm. We allowed this to happen and must retake the ground given up.

What should our government and our medical system be doing? Government – roads; borders; national defense; Medical – set broken bones; bandage open wounds

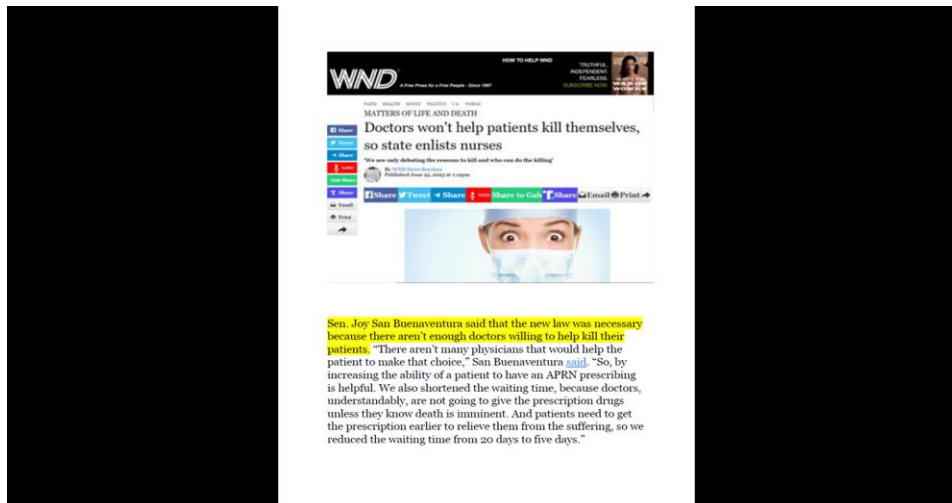

Annual deaths: 700K heart disease; 600K cancer; 400K medical “malpractice”

2. Did you know hospital mortality decreases when doctors go on strike?

<https://im1776.com/2022/02/15/doctor-death/>

3. Brand new...Not enough doctors are engaged, so nurses are now being enlisted agents of death:

<https://www.wnd.com/2023/06/doctors-wont-help-patients-kill-state-enlists-nurses/>

4. They are pulling out all the stops. Time is urgent. Satanists are no longer hiding their intent to kill us – using their greatest weapon - deception:

5. Obamacare Section 1553 – pdf highlighted document
6. Down syndrome training document – pdf highlighted document
7. Public Health Emergency status – even worse now, because hidden:
<https://www.hhs.gov/about/news/2023/05/09/fact-sheet-end-of-the-covid-19-public-health-emergency.html>

Public Readiness and Emergency Preparedness (PREP) Act liability protections will be amended. On April 14, 2023, HHS Secretary Becerra [sent a letter](#) and [Fact Sheet](#) to the nation’s governors announcing his intention to amend the PREP Act declaration to extend certain important protections that will continue to facilitate access to convenient and timely COVID-19 vaccines, treatments, and tests for individuals. The Secretary intends to amend the PREP Act declaration for the COVID-19 countermeasures to extend the protections referenced in that fact sheet as well as others and publish the amendment in the Federal Register as required by the PREP Act.

The screenshot shows a web browser displaying the FDA website. The page title is "FAQs: What happens to EUAs when a public health emergency ends?". The page features a navigation bar with the FDA logo and a search bar. Below the navigation bar, there is a breadcrumb trail: Home / Emergency Preparedness and Response / Counterterrorism and Emerging Threats / Medical Countermeasures Initiative (MCM) / MCM Legal, Regulatory and Policy Framework / FAQs: What happens to EUAs when a public health emergency ends?. The main content area has a large heading "FAQs: What happens to EUAs when a public health emergency ends?". Below the heading, there are social media sharing options (Share, Tweet, LinkedIn, Email, Print) and a "Subscribe to Email Updates" button. The page is divided into three columns. The left column contains a sidebar with links: "MCM Legal, Regulatory and Policy Framework", "Emergency Use Authorization", "Expiration Dating Extension", "MCM Emergency Use Authorities", and "MCM-Related Counterterrorism Legislation". The middle column contains the main text, which includes a "May 12, 2023 update" stating that the COVID-19 public health emergency (PHE) declared under the Public Health Service (PHS) Act expired. It also mentions that since the start of the COVID-19 PHE, the FDA has been committed to providing timely recommendations and regulatory information to support response efforts. The right column contains a "Content current as of:" section with the date "05/12/2023", a "Regulated Product(s)" section listing "Biologics", "Drugs", and "Medical Devices", a "Topic(s)" section listing "Emergencies", and a "Health Topic(s)" section listing "Coronavirus". At the bottom of the page, there is a "Questions and answers" section with links for "Questions and answers", "Related links", "Product-specific information", and "Contact FDA". The browser's address bar shows the URL: "https://www.fda.gov/emergency-preparedness-and-response/mcm-legal-regulatory-and-policy-framework/faqs-what-happens-euas-when-public-health-emergency-ends". The browser's taskbar at the bottom shows the time as 11:54 AM on 7/16/2023 and the temperature as 76°F.

100M Americans on Medicaid – the budget excuse to kill us

8. Protecting yourself – defining informed consent and advocates' responsibilities; why do non-hunters own a gun?

Code of Medical Ethics Opinion 2.1.1

Informed consent to medical treatment is fundamental in both ethics and law. Patients have the right to receive information and ask questions about recommended treatments so that they can make well considered decisions about care. Successful communication in the patient-physician relationship fosters trust and supports shared decision making.

Why is our family engaged? Took in step in faith. If you witnessed a murder, what is your responsibility? What about a drive by shooting?
